

iSectors® Institutional 40-60 Allocation

Portfolio Description

The objective of iSectors® Institutional 40-60 Allocation model is to provide current income and offer some potential for capital appreciation. Approximately 60% of the portfolio is allocated to U.S. and non-U.S. fixed income securities, with the remaining 40% of the portfolio allocated to domestic and international equities. The fixed income portion of the portfolio is diversified across a range of low-cost exchange-traded funds (ETFs). The core of this portfolio holds domestic and international government, mortgage-backed, municipal, and corporate bonds with various maturities. The remainder of the fixed income portfolio is invested in ETFs that hold non-investment grade fixed income securities, high-yield bonds and emerging markets debt instruments in an effort to add diversification and the potential for increased returns. The equity portion of the portfolio is allocated according to Modern Portfolio Theory using a diversified basket of domestic and international low-cost equity index-based ETFs. In addition, fundamentally-weighted index ETFs are used in an effort to enhance return and reduce volatility. Two percent of the portfolio is invested in cash and/or cash equivalents to provide liquidity and facilitate transactions. The portfolio is intended for investors with a moderate risk utility and a short to intermediate time horizon.

Institutional 40-60 Portfolio Quick Facts

(as of 3/31/2010)

¹Risk ratings and risk points are determined based upon overall asset allocation and are ranked based upon a 100 point scale which is divided into 7 risk point sections: Capital Preservation (1-14), Conservative (15-29), Conservative Growth (30-43), Moderate (44-57), Moderate Growth (58-71), Growth (72-86), and Aggressive (87-100). ²The target allocation/holdings information is as of 3/31/2010 and should not be considered a recommendation to buy or sell a particular security. There is no assurance that any specific securities listed will remain a part of the model. ³An indication of the expected dividends and interest based on the market value of the portfolio as of 3/31/2010. An investment in the iSectors Institutional 40-60 Allocation is not guaranteed and, at any given time, may be worth more or less than the amount invested.

iSectors® Institutional 40-60 Allocation

Fees

Asset Management and Platform fee: 0.35% of assets under management. Fees are assessed pro rata at the beginning of each calendar quarter based upon assets under management at the end of the previous quarter. Minimum investment in any one iSectors Institutional Portfolio is \$25,000. Investment amounts greater than \$500,000 in any single account may qualify for reduced platform fees.

Custody and Trading fees: Vary by custodian. Fidelity or Pershing charge a fixed annualized \$150 fee per account regardless of account size or number of transactions. Custody and trading fees at Schwab are 0.10% (10 bps) of assets under management with a \$200 annual minimum. TD Ameritrade's annual custodial charges are 0.15% of assets with a \$300 minimum.

Advisory fee: iSectors Domestic Portfolio Allocations are only available through independent registered investment advisors. Advisors will assess additional fees for the services they provide.

About The Manager:

iSectors® has developed and provides a comprehensive suite of 21 proprietary Exchange-Traded Fund (ETF)-based asset allocation models and services. Collectively, the iSectors web-based platform and series of asset allocation models offer advisors and their clients a broad selection of strategies, services and support to assist them in building and managing an appropriate investment solution designed to achieve a client's financial objectives.

Allocation models are categorized by risk and return characteristics and organized into four unique series of asset allocation approaches: Domestic, Institutional, Endowment, and Post-MPT Series. Also offered are Liquid Alternatives, Tactical International, Inflation Protection and Capital Preservation allocation models.

iSectors® ETF-based portfolios are low-cost (when compared to most actively-managed mutual funds), offer intraday liquidity, and provide complete transparency with respect to model holdings. All assets are held in separately managed accounts titled in the client's name. Investors are fully supported by their independent registered investment advisor (RIA) and a team of back-office service professionals.

iSectors, LLC is an affiliate of Sunnicht & Associates, LLC (Sunnicht) and, as such, iSectors and Sunnicht share certain employees' services. Sunnicht & Associates was founded in 1988. iSectors became a separate Registered Investment Advisor in August, 2008.

The contents of this presentation are intended for informational purposes only. This is neither an offer nor a solicitation to buy and/or sell securities. Information pertaining to iSectors advisory operations, services, and fees is set forth in its current disclosure statements (Form ADV Part II and Schedule F), a copy of which is available upon request.

iSectors' Allocation models are not guaranteed and involve risk of loss. At any given point in time, the value of an iSectors® Asset Allocation model may be worth more or less than the amount invested. Different types of investments and/or investment strategies involve varying levels of risk, and there can be no assurance that any specific investment or investment strategy (including the investments and/or investment strategies devised or undertaken by iSectors) will be either suitable or profitable for a client's or prospective client's portfolio. Asset allocation and diversification concepts do not ensure a profit nor protect against loss in a declining market.

You should not assume that any discussion or information contained in this presentation serves as the receipt of, or as a substitute for, personalized investment advice from an investment professional.
