

FOR IMMEDIATE RELEASE

iSectors® Returns +14.6% in 3rd Quarter 2011 and +16.6% Year-To-Date

Appleton, WI October 25, 2011

The iSectors® [Post-MPT Growth Allocation](#) returned +14.60 and +16.60% for the respective 3rd quarter and year-to-date periods ended September 30, 2011. The model's benchmark, the S&P 500 index returned -13.87% and -8.68% during those same periods. As iSectors' flagship model, the Post-MPT Growth Allocation has 6 ½ years of performance results and is outperforming the S&P 500 on a 1-year, 3-year, 5-year, and inception-to-date basis. The Post-MPT Growth Allocation offers a unique strategy that has demonstrated strong performance, positive alpha, along with low correlation relative to the S&P 500 index.

“This model was designed as a dynamic, non-correlated solution that can help investors improve risk-adjusted returns,” noted President and CEO, Vern Sumnicht.
