

iSectors® Global Equity Allocation

12/2022

The objective of the iSectors® Global Equity Allocation model is to provide long-term growth of capital. This equity-only portfolio is allocated among a diversified selection of domestic and international low-cost equity index-based exchange-traded funds (ETFs). In addition, fundamentally-weighted, dividend-focused index ETFs are used in an effort to enhance return and reduce volatility. Two percent of the portfolio is allocated to cash and/or money market securities to provide liquidity and facilitate transactions. This portfolio is intended for investors with an aggressive risk utility and a long-term time horizon.

Disclosure

iSectors® is a suite of proprietary asset allocation models and services. iSectors, LLC is an affiliate of Sumnitch & Associates, LLC (Sumnitch) and, as such, iSectors and Sumnitch share certain employees' services. iSectors became registered as an investment advisor in August 2008. iSectors allocation models are only available through registered investment advisors as separately managed accounts (SMAs) or unified managed accounts (UMAs). iSectors® is a registered trademark of Sumnitch Holdings, LLC.

The contents of this presentation are for informational purposes only. Content should not be construed as financial or investment advice on any subject matter. This is neither an offer nor a solicitation to buy and/or sell securities. Information pertaining to iSectors' advisory operations, services, and fees is set forth in its current disclosure statement (Form ADV, Part 2 Brochure), a copy of which is available upon request.

iSectors' allocation models are not guaranteed and involve risk of loss. At any given point in time, the value of iSectors allocation model portfolios may be worth more or less than the amount invested. Different types of investments and/or investment strategies involve varying levels of risk, and there can be no assurance that any specific investment or investment strategy (including the investments and/or investment strategies devised or undertaken by iSectors) will be either suitable or profitable for a client's or prospective client's portfolio.

Past performance may not be indicative of future results. Therefore, no current or prospective client should assume that future performance will be profitable, or equal either the performance results reflected or any corresponding historical index. Asset allocation and diversification concepts do not ensure a profit nor protect against loss in a declining market.

The historical benchmark index performance results are provided exclusively for comparison purposes to assist an individual client in determining whether the performance of a specific investment meets the client's investment objective(s). It should not be assumed that any account holdings will correspond directly to any comparative index. Index performance results do not reflect the impact of taxes. Indexes are not available for direct investment. Index performance results are compiled directly by each respective index and obtained by iSectors from reliable sources. Index performance has not been independently verified by iSectors. iSectors models are based on index ETFs that can neither outperform nor underperform their benchmark index. We provide benchmark indexes that are well known for comparison purposes only.

Fee Information

Composite performance results reflect the reinvestment of dividends and other account earnings and do not reflect the impact of taxes. Composite performance results provided are net of iSectors' management fee with the assumption that the fee will remain constant for all accounts. Additional fees that could be charged such as platform, advisory and custodial fees are not included. iSectors investment allocation models are only available through registered investment advisors as SMAs or UMAs, who will charge an additional fee for their advisory services. For information about the fees that pertain to a client's accounts, check with your platform provider. For reasons including size of account, platform provider and custodian utilized, as well as variances in portfolio account holdings, market fluctuation, the date on which a client engaged iSectors' services, regular model rebalancing and/or updates, and timing of account contributions and withdrawals, the underlying fees and performance of a specific client's account may vary from other accounts. ERISA (group retirement) accounts may be subject to additional recordkeeping and/or administrative fees.

This information is marketed to investment professionals. iSectors®, LLC has managed the asset allocation models since the firm's inception in 2008. Previously, Sumnitch & Associates, LLC (Sumnitch), an affiliated company, managed the allocations. Sumnitch is a provider of investment management services for institutional, family office and individual clients. Sumnitch claims compliance with the Global Investment Performance Standards (GIPS®). Sumnitch claims that the allocations are GIPS® compliant since each allocation's respective inception dates and have been GIPS verified from 1/1/2008 to 12/31/2021, as of the verification date of 7/20/2022. The allocation composites include both institutional and individual client accounts whereby iSectors® has sole portfolio discretion with investment objectives matching that of each specific allocation. Performance in this publication is shown in US dollars, net of iSectors' management fee, including the reinvestment of dividends and do not reflect the impact of taxes. Returns will be reduced by platform, custodial, trading, and advisory fees, if applicable. GIPS® is a registered trademark of CFA Institute.
