The Objective of iSectors® Post-MPT Moderate Allocation: To achieve moderate investment returns with lower downside risk over a complete market cycle.

Quarterly Performance and Attribution: iSectors Post-MPT Moderate Allocation lost 7.47% (net of fees) in the third quarter ended September 30, 2023. This underperformed the 60-40 stock-bond benchmark (as measured by a 60% S&P 500 Index + 40% Bloomberg Aggregate Bond Index), which lost 3.24% during the quarter.

During the third quarter of 2023, healthcare and treasury bonds were the major detractors from returns in the model. This month's changes to the portfolio allocation greatly increased exposure to traditional equity sectors, such as technology and healthcare. For the first time since 2010 the model holds a zero allocation to bonds. 2010 was also the last time the model held such a high allocation to gold. Please see our more [detailed commentary](#) for more information.

iSectors® Post-MPT Moderate Allocation's Investment Strategy: iSectors® Post-MPT catapults Modern Portfolio Theory (MPT) to a new level of effectiveness. The investment model's strategy uses the principles of MPT to develop and maintain an optimal (along the risk vs. return efficient frontier) portfolio allocation. The key principles contributing to iSectors Post-MPT Moderate Allocation's risk-adjusted performance success are:

- Allocation among nine low-correlated asset classes. This reduces risk versus using the higher correlated large, mid and small cap value, growth, and blended asset classes.
- A more robust mathematical algorithm allows the use of monthly changes in more than a dozen capital market and economic factors to create and maintain optimal asset allocation.
- The use of technology and index based exchange-traded funds allows iSectors to provide its investment models at a low cost.
- Post-MPT models consider drawdown (any return below zero) as the measure of risk. Standard deviation, the traditional measure of risk is inappropriate because it considers upside volatility as bad as downside volatility.

Portfolios may be invested up to a maximum of 30% into any one asset class. However, up to 50% of the allocation may be invested in government bonds. iSectors investment models are available for all types of accounts including: high net worth individuals, trusts, foundations, endowments, retirement plans, and IRAs. Prices, holdings, performance, and tax information are updated daily and can be viewed online. In addition, all iSectors investments provide investors daily liquidity.

Performance results assume \$100,000 account and are net of fees of 0.50%, for period starting 3/1/2008 through 9/30/2023.

iSectors® Post-MPT Moderate Allocation Executive Summary 3rd Quarter 2023

iSectors Post-MPT Moderate 4 Yr. Rolling Returns

Timing an investment in iSectors® Post-MPT Moderate Allocation should not be a concern. The graph above shows the 4-year rolling returns for an investment in the iSectors® Post-MPT Moderate Allocation. There were 140 rolling 4-year periods over 14+ years from 3/1/2008 to 6/30/2023, and none of them dipped below zero. This means that as long as an investment was held in Post-MPT Moderate for at least 4 years at any time from 3/1/2008 to 9/30/2023, there was a 0% chance of losing money.

iSectors® Post-MPT Moderate Allocation vs. S&P 500

This graph compares an investment in iSectors® Post-MPT Moderate Allocation to an investment in the S&P 500 Index. The comparison considers returns on 167 rolling 12-month periods for both investments from 3/1/2008 to 9/30/2023. In any 12-month period that the S&P 500 was negative, the iSectors Post-MPT Moderate Allocation outperformed it during that period 85% of the time and captured only 55% of the loss. In any 12-month period that the S&P 500 was positive, but with a gain of less than 10%, iSectors® Post-MPT Moderate Allocation outperformed it 58% of the time and captured 139% of the gain. In addition, when the S&P 500 gained over 10% in a 12-month period, iSectors® Post-MPT Moderate Allocation still managed to capture 48% of the gain.

IMPORTANT DISCLOSURE INFORMATION

General Disclosure

iSectors® is a suite of proprietary asset allocation models and services. iSectors®, LLC is an affiliate of Sumnicht & Associates, LLC (Sumnicht) and, as such, iSectors® and Sumnicht share certain employee services. iSectors® became registered as an investment advisor in August 2008. iSectors® is a registered trademark of Sumnicht Holdings, LLC.

The contents of this presentation are for informational purposes only. Content should not be construed as financial or investment advice on any subject matter. This is neither an offer nor a solicitation to buy and/or sell securities. Information pertaining to iSectors® operations, services, and fees is set forth in its current disclosure statement (Form ADV, Part 2 Brochure), a copy of which is available upon request.

iSectors® asset allocation models are not guaranteed and involve risk of loss. At any given point in time, the value of iSectors® asset allocation model portfolios may be worth more or less than the amount invested. Different types of investments and/or investment strategies involve varying levels of risk, and there can be no assurance that any specific investment or investment strategy (including the investments and/or investment strategies devised or undertaken by iSectors®) will be either suitable or profitable. Financial professionals are responsible for evaluating investments risks independently and for exercising independent judgement in determining whether investments are appropriate for their clients.

Past performance may not be indicative of future results. Therefore, no current or prospective investor should assume that future performance will be profitable, or equal either the performance results reflected or any corresponding historical index. Asset allocation and diversification concepts do not ensure a profit nor protect against loss in a declining market.

The historical benchmark index performance results are provided exclusively for comparison purposes to assist an advisor in determining whether the performance of a specific investment meets their respective client's investment objective(s). It should not be assumed that any account holdings will correspond directly to any comparative index. Index performance results do not reflect the impact of taxes. Indexes are not available for direct investment. Index performance results are compiled directly by each respective index and obtained by iSectors® from reliable sources. Index performance has not been independently verified by iSectors®. iSectors® models are based on index ETFs that can neither outperform nor underperform their benchmark index. We provide benchmark indexes that are well known for comparison purposes only.

Fee Information

Composite performance results reflect the reinvestment of dividends and other account earnings and do not reflect the impact of taxes. Composite performance results provided are net of iSectors® standard management fee with the assumption that the fee will remain constant for all accounts. Additional fees that could be charged such as platform and custodial fees are not included. iSectors® asset allocation models are available through registered investment advisors who will charge an additional fee for their advisory services. For reasons including size of account, platform provider and custodian utilized, as well as variances in portfolio account holdings, market fluctuation, the date on which an investor engaged iSectors® services, regular model rebalancing and/or updates, and timing of account contributions and withdrawals, the underlying fees and performance of a specific account may vary from other accounts. ERISA (group retirement) accounts may be subject to additional recordkeeping and/or administrative fees.

GIPS® Information

This information is marketed to investment professionals. iSectors®, LLC has managed the asset allocation models since the Firm's inception in 2008. Previously, Sumnicht & Associates, LLC (Sumnicht), an affiliated company, managed the allocations. Sumnicht is a provider of investment management services for institutional, family office and individual clients. Sumnicht claims compliance with the Global Investment Performance Standards (GIPS®). Sumnicht claims that the allocations are GIPS® compliant since each allocation's respective inception dates and have been GIPS® verified from 1/1/2008 to 12/31/2022, as of the verification date of 7/18/2023. The allocation composites include both institutional and individual client accounts whereby iSectors® has sole portfolio discretion with investment objectives matching that of each specific allocation. Performance in this publication is shown in US dollars, net of iSectors® management fee, including the reinvestment of dividends and does not reflect the impact of taxes. Returns will be reduced by platform, custodial, trading, and advisory fees, if applicable. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant accuracy or quality of the content contained herein. Past performance is not indicative of future results. To obtain a compliant presentation and a list and description of the Firm's composite performances, please contact John Koch, Senior Investment Analyst, at (920) 257-5170.
