

iSectors® Domestic Equity Allocation

3/2024

The iSectors® Domestic Equity Allocation is a value-focused, index-based ETF allocation model. The portfolio overweights ETFs that own quality dividend paying companies emphasizing those that have increased their dividends every year for many consecutive years. This strategy is based on iSectors® research that indicates the value of dividends in providing long-term returns and reduced volatility. In addition, our study suggests that the best approach to selecting dividend-paying equities while avoiding the landmines (dividend-paying companies that go out of business or drastically cut dividends) is to choose companies of high quality. These may be companies with a long history of consecutive annual dividend increases, low price volatility, high excess cash flows, and/or strong balance sheets. These are primarily large, U.S.-based, multinational companies but include small- and mid-cap companies as well. The model also holds some ETFs that own growth stocks (large, mid, and small-cap) to provide additional capital gain opportunities.

Information pertaining to iSectors[®] operations, services, and fees is set forth in its current disclosure statement (Form ADV, Part 2 Brochure), a copy of which is available upon request.

iSectors[®] asset allocation models are not guaranteed and involve risk of loss. At any given point in time, the value of iSectors[®] asset allocation model portfolios may be worth more or less than the amount invested. Different types of investments and/or investment strategies involve varying levels of risk, and there can be no assurance that any specific investment or investment strategy (including the investments and/or investment strategies devised or undertaken by iSectors[®]) will be either suitable or profitable. Financial professionals are responsible for evaluating investments risks independently and for exercising independent judgement in determining whether investments are appropriate for their clients.

Past performance may not be indicative of future results. Therefore, no current or prospective investor should assume that future performance will be profitable, or equal either the performance results reflected or any corresponding historical index. Asset allocation and diversification concepts do not ensure a profit nor protect against loss in a declining market.

The historical benchmark index performance results are provided exclusively for comparison purposes to assist an advisor in determining whether the performance of a specific investment meets their respective client's investment objective(s). It should not be assumed that any account holdings will correspond directly to any comparative index. Index performance results do not reflect the impact of taxes. Indexes are not available for direct investment. Index performance results are compiled directly by each respective index and obtained by iSectors[®] from reliable sources. Index performance has not been independently verified by iSectors[®]. iSectors[®] models are based on index ETFs that can neither outperform nor underperform their benchmark index. We provide benchmark indexes that are well known for comparison purposes only.

Fee Information

Composite performance results reflect the reinvestment of dividends and other account earnings and do not reflect the impact of taxes. Composite performance results provided are net of iSectors[®] standard management fee with the assumption that the fee will remain constant for all accounts. Additional fees that could be charged such as platform and custodial fees are not included. iSectors[®] asset allocation models are available through registered investment advisors who will charge an additional fee for their advisory services. For reasons including size of account, platform provider and custodian utilized, as well as variances in portfolio account holdings, market fluctuation, the date on which an investor engaged iSectors[®] services, regular model rebalancing and/or updates, and timing of account contributions and withdrawals, the underlying fees and performance of a specific account may vary from other accounts. ERISA (group retirement) accounts may be subject to additional recordkeeping and/or administrative fees.

GIPS[®] Information

This information is marketed to investment professionals. iSectors[®], LLC has managed the asset allocation models since the Firm's inception in 2008. Previously, Sumnicht & Associates, LLC (Sumnicht), an affiliated company, managed the allocations. Sumnicht is a provider of investment management services for institutional, family office and individual clients. Sumnicht claims compliance with the Global Investment Performance Standards (GIPS[®]). Sumnicht claims that the allocations are GIPS[®] compliant since each allocation's respective inception dates and have been GIPS[®] verified from 1/1/2008 to 12/31/2022, as of the verification date of 7/18/2023. The allocation composites include both institutional and individual client accounts whereby iSectors[®] has sole portfolio discretion with investment objectives matching that of each specific allocation. Performance in this publication is shown in US dollars, net of iSectors[®] management fee, including the reinvestment of dividends and does not reflect the impact of taxes. Returns will be reduced by platform, custodial, trading, and advisory fees, if applicable. GIPS[®] is a registered trademark of CFA Institute.
