

## iSectors® Capital Preservation Allocation

iSectors® Capital Preservation Allocation is a strategic model with the goal of offering stability of principal while providing a higher return potential than can be gained by money market funds or other cash equivalents.

### Portfolio Description

This is a strategic model that seeks principal stability over a 2-3 year period by assembling a portfolio of ETFs that collectively offer relatively low volatility. Nominal portfolio yield is a secondary goal of the model. The model primarily targets ETFs holding short-term, investment grade fixed income securities. A lesser portion of the portfolio may hold ETFs of short-term international or high yield securities. The model seeks to maintain an average investment grade rating for the entire portfolio as well as keeping portfolio duration to approximately 3 years or less.

Portfolio Composition <sup>1</sup>	
Fixed Income (98.0%)	
Short Term Inv. Grade Domestic Corp. Bonds	Short Term
Floating Rate Notes	Short Term
Short Term Government Bonds	Short Term
Short Term Inv. Grade Core Bond	Short Term
