

iSectors® Domestic Fixed Income Allocation

Portfolio Description

The iSectors® Domestic Fixed Income Allocation invests in laddered short-term U.S. fixed income securities. Two percent of the portfolio is allocated to money market instruments to provide liquidity and facilitate transactions. The model is intended for investors with a conservative risk utility or for a fixed income portion of a broader asset allocation. The iSectors® Domestic Fixed Income Allocation seeks to benefit from ETF's low investment expenses, transparency, liquidity and diversification compared to most actively managed mutual funds.
